GETTING STARTED

1. Insert the disc into your **DVD-ROM Drive**, and wait for autoplay to run.

   - If prompted, select "Run Program".

2. Select "Install" from the Autorun menu.

3. Press "Install" and agree to the license agreement.

4. Microsoft DirectX® 9.0c will automatically be installed in the background.

5. Log in to your existing Steam account, or follow the on-screen instructions to create a new Steam account.

6. "The Amazing Spider-Man 2" will automatically be selected as the game to install. Press "Next".

   - Note that Disk space is listed for user information. 10GB of uncompressed hard disk space (Plus 200MB for swap file) are required to install The Amazing Spider-Man 2.

7. Select whether to install desktop and Start Menu shortcuts.

8. The installer will now install the game.

9. The Amazing Spider-Man 2 will now be available in the "**LIBRARY**" list in the Steam client.

10. Please allow Steam to make any necessary updates to the game.

11. Once the game status is set to "100% - Ready", Double-click on "The Amazing Spider-Man 2" to play.

   - Note: Internet connection required to install.
