There are 5 levels of sailors in the game:

You earn experience points during battles, so these points can be used to level up your crew. Drag a greenhand to an upgrade icon and select the amount you want for his promotion.

For example, if you have 3 greenhands and you only have enough experience points to promote just one of them, drag the greenhand to an upgrade icon, choose 1 and drop. There will be two more sailor boys on the ship.
