**Difficulty:** Select the level of difficulty: Hard, Normal, or Easy.

## Basic Serves/Shots

### Serving

A serve meter is displayed during your serve to indicate how powerful your serve will be.

#### To serve the ball

1. Press **[S]** to start a safe serve.
2. Press **[S]** again to set the power level on the serve meter and perform the serve. The closer the indicator stops to the top of the meter, the more powerful your serve will be.
3. Use the **Mouse** during your backswing to aim your serve.

Once you are familiar with the serving process, vary your serve by using different serve types to catch your opponent off guard.

## Basic Serve Types

<b>[S]</b>	<b>Safe Serve-</b> A fast serve with little or no spin on the ball.
<b>[D]</b>	<b>Topspin Serve-</b> A serve with forward spin on the ball that produces a high bounce.
<b>[A]</b>	<b>Slice Serve-</b> A serve with sidespin on the ball that stays low going over the net and produces a low bounce.

## Returning Serves/Shots

The key to returning serves and shots is to try to anticipate where your opponent might hit the ball so you can get into position early. The more time you have to prepare your shot, the better it will be. If you hit the ball when you are off balance, there's a greater chance your shot will go out of bounds or into the net.

### To return a serve/shot

1. Press **[S]** to hit a safe shot. Press and hold the key to give your shot more power, better control over the angle, and increased accuracy. This behavior works for all shot types.
2. Use the **Mouse** after starting your backswing to aim your shot.

## Basic Shot Types

<b>[S]</b>	<b>Safe Shot-</b> A shot with little or no spin on the ball. This shot doesn't have a lot of power or angle, but will not go out of bounds or into the net.
<b>[D]</b>	<b>Topspin Shot-</b> A shot with forward spin on the ball that produces a high bounce.
<b>[A]</b>	<b>Slice Shot-</b> A shot with backspin that keeps the ball low. This is an excellent defensive shot.
<b>[W]</b>	<b>Lob Shot-</b> A high arcing shot used to pull your opponent off the net or to buy time to get yourself back into position.

## Volley Shots

Volley shots are performed the same way as basic shots, but when your player is at the net, the shot buttons serve slightly different purposes.

## Volley Shot Types

<b>[S]</b>	<b>Safe Volley-</b> A medium shot that doesn't have much power or angle, but returns the ball safely.
<b>[D]</b>	<b>Smashed Volley-</b> A powerful but risky shot with some angle that can easily go out or into the net.
<b>[A]</b>	<b>Sliced Volley-</b> This shot makes up in angle, precision, and depth what it lacks in power.
<b>[W]</b>	<b>Lob Volley-</b> A high arcing shot useful when your opponent is also at the net.

## Risk Shots

Risk shots are more powerful and effective than basic shots, but they are also more difficult to perform. Perfect timing is required to pull off a successful risk shot. A risk shots gauge similar to the serve meter is displayed to help time your risk shots.

### To perform a risk shot/serve

1. Click and hold the **SPACEBAR** while pressing **S**, **D**, **A**, or **W** depending on the type of risk shot/serve you want to attempt.
2. Release the shot key when the risk shots gauge is in the flashing yellow area. If the key is released too early, the shot will be weak or the serve will go into the net; too late, the shot/serve will go out.

### Risk Shot/Serve Types

<b>SPACEBAR</b> + <b>S</b>	<b>Power Risk Shot</b> - A powerful shot with no spin on the ball that can go out if you are off balance. <b>Risk Serve</b> - A devastating serve that can ace your opponent.
<b>SPACEBAR</b> + <b>D</b>	<b>Diagonal Shot</b> - A crosscourt shot used to hit the sidelines and put your opponent on the wrong foot.
<b>SPACEBAR</b> + <b>A</b>	<b>Drop Shot</b> - A soft, short shot with backspin that drops just over the net. <b>Dump Serve</b> - An underhand serve that will drop close to the net.
<b>SPACEBAR</b> + <b>W</b>	<b>Risk Lob Shot</b> - A fast lob shot that can catch your opponent at the net off guard.

## Advanced Shots

Advanced shots are obtained by completing special training sessions during your career. There are four advanced shots you can learn that can help you win otherwise desperate rallies.

To perform an advanced shot, click the **SHIFT** while pressing **S**, **D**, **A**, or **W**. Advanced shots cost momentum and can only be used if you have enough momentum in your momentum bar.

### Advanced Shot Types

<b>SHIFT</b> + <b>S</b>	<b>Counter Shot</b> - A flat shot that uses the incoming ball's power and turns it against your opponent.
<b>SHIFT</b> + <b>D</b>	<b>Passing Shot</b> - A topspin shot that can pass a volley player both along the line or crosscourt.
<b>SHIFT</b> + <b>A</b>	<b>Side Slice Shot</b> - A viciously spinning shot that will keep your opponent confused.
<b>SHIFT</b> + <b>W</b>	<b>Dump Shot</b> - A crafty drop shot with an extreme angle and humiliation factor.

## Momentum

Momentum is an indicator of which player (or doubles team) is dominating a match. Each player starts with zero momentum and can earn up to 100 by playing well and winning points. Playing poorly will cause you to lose momentum as your opponent gains a higher advantage. Using advanced shots will also cost you momentum. Momentum bars are displayed during every match, allowing you to track how well you are playing compared to your opponent.

---

You will have to start at the bottom – ranked 200 – and work your way up. In addition to competing in tournaments to become the highest-ranked player in the world, you will have to manage a demanding schedule of training sessions, special events, and sponsor obligations. You will even develop a special rivalry with one of the players. Welcome to the Pros!

To start a career, select Career – new from the Main Menu. Then, select a gender for your player. You can also load a saved career by selecting Career – load.

## Player Creator

Press **[E]** at any time to display the full season calendar to help you plan which tournaments you want to play.

**Basic and Risk Shot Trainings:** As your career progresses, your coach will teach you how to better use specific shots at no additional cost.

**Advanced Shot Trainings:** After you are fully trained, you may be invited by a Pro to learn a special advanced shot. These trainings are free.

**Tournaments:** Compete in tournaments to win coin and improve your ranking and status. Several types of tournaments appear on the calendar. Smaller tournaments have no requirements and can be played at any time during your career, while larger ones are more exclusive and require you to reach a certain rank before you can enter them.

**Special Events:** Attend special events to earn additional coin or other rewards. Special events will occasionally appear on the calendar at certain points in your career based on your ranking or sponsor level.

You can access the other areas within Creator by using **[SHIFT] / [SPACEBAR]** Mouse Buttons while in Tennis Central. You can easily return to Tennis Central by pressing **[D]** on any other screen.

## Coach Page

On the Coach Page, you can compare coaches and their maximum level of training for each training exercise. Successfully complete training exercises to earn Bronze stars that can be used to improve your abilities. To develop a particular playing style, learn the required abilities by training with the coach that specializes in that style. There are five playing styles to choose from: Volley Player, Baseline Attacker, Baseline Controller, Focus, and Power Player.

To perform a training exercise, go to Tennis Central and select Training from the current time slot.

Your coach will be one of your greatest assets in advancing your career, offering training and advice to help you win tournaments, and assisting with your sponsor offers. Change your coach free of charge after your first completed season. To hire a new coach, highlight the coach you want, and then press **[S]**. You must wait one season before you can rehire your previous coach.

## Sponsor Page

Having a sponsor can earn you special equipment, clothing, and coin you can use to pay for training. All sponsor offers are displayed on the Sponsor Page along with the challenges you need to successfully complete in order to receive reward money.

When you first sign on with a sponsor, you enter at the Recruit level. As you move up in the rankings, gain exposure, and complete sponsor objectives, your sponsor level will increase and sponsor offers will become more lucrative. The sponsor levels you can achieve are: Recruit, Poster Boy/Girl, Standard Bearer, Image Leader, and Brand Icon. With each level, you will have access to special events that will appear on the calendar in Tennis Central.

Your first sponsor will contact you via e-mail after you have played in a few matches early in your career. As you become more famous, new sponsors will want to recruit you.

To sign on with a sponsor, highlight the sponsor you want, and then press **[S]**. You can change your sponsor at any time without affecting your sponsor level. After changing sponsors, you must wait one season before you can sign on with a different sponsor.

## Message Center

The Message Center is where you receive and view e-mails from your coach, your sponsor, other players, and fans. You will also receive messages from prospective coaches and sponsors, invitations to special events, and notifications when you receive new sponsor gifts.

## Sport Shop

The Sport Shop is where you can make cosmetic changes to your player's appearance and buy additional clothing and equipment. Your new gear is stored in your Sport Bag located in My Player.

---

## Coin

---

You need coin to pay for training exercises as well as to buy gear and to alter your player's appearance in the Sport Shop. You earn coin by playing in tournaments and special events, and by completing sponsor challenges.

---

## Stars

---

Earn stars to improve your abilities and develop your playing style over the course of your career. By attempting training exercises, you will earn Bronze stars that can be put towards improving abilities specific to the exercise. If you successfully complete a training exercise, you will earn several stars. But even if you fail, the exercise is worth trying because you will earn one star for your effort. You can earn a maximum of 60 stars. As you put your training to the test by entering tournaments and special events, you will be able to transform your Bronze stars into Silver stars and eventually into Gold stars, giving your player an extra boost in those abilities.

There are three sets of characteristics that define your player's abilities. How you allocate your stars among these sets will determine your playing style.

- **Attributes** represent the development of your physical qualities and are influenced by Stamina, Speed, Reflexes, and Focus.
- **Techniques** represent how well you have mastered the basic shots and are influenced by Service, Forehand, Backhand, and Volley.
- **Skills** represent your proficiency on the court and are influenced by Power, Precision, and Spins.

---

# World Ranking, Status, and Career Progression

Once you have acquired a new status, it cannot be downgraded due to a drop in the rankings. Your current world ranking and status level are displayed in Tennis Central.
