

- TRAIL OF - NANOOK

Hello and thank you very much for trying out our game.

Please know this is still in development so there is a chance you encounter some bugs. We still hope you have a nice time playing.

Here are some quick tips that will help you

F1 = Save game

F2 = Load game

When you are cold you can walk up to the other character and repeatedly press the action button to rub him or her warm.

When on ice with fish underneath you can punch holes by equipping your spear and repeatedly pressing the action button.

thank you very much on behalf of the entire Sakari Games team.
