

When you run "Jungles of Maxtheria" for the first time, go to the settings area:

- From the MAIN MENU, click on the START MENU button.
- On the START MENU, at the top-center of the screen, click on the "Help & Global Settings" button.
 - "**Help #1**" gives detailed information about the keyboard and joystick buttons.
 - "**Help #2**" are the instructions on how to play.
 - "**Help #3**" is a quick start first time training game. Complete this to learn how to play fast.
- "**Input Settings**" allows you to remap the joystick and keyboard keys to anything that you want.
- "**Player Preferences**" gives you the option to delete the current game and start a new.
- "**Sound Settings**" allows you to adjust the sound effects and music volumes.
