CONTROLS (1)

Game controls

In addition to the Xbox One Wireless Controller and the DUALSHOCK®4 wireless controller for the PS4™, this game also supports mouse and keyboard controls.

You can configure the controls by selecting "Button Configuration" in the Configs menu.

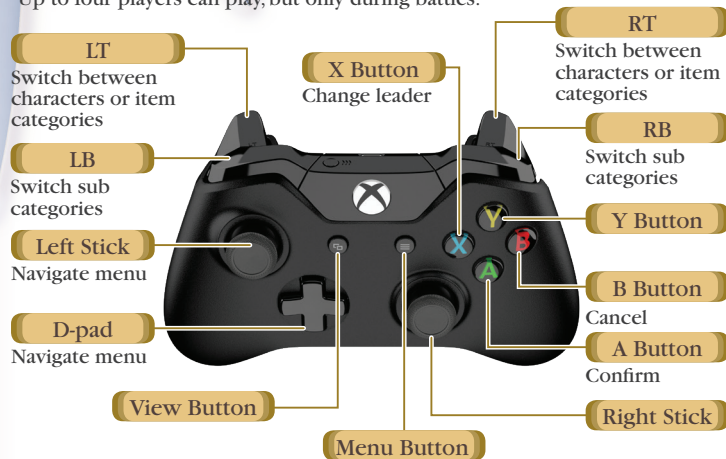

Xbox One Wireless Controller

Listed are the names for each button and the basic controls for menus.

*Button prompts will be displayed on the map and in menus near the bottom of the screen when you can perform an action.

*In order to use the vibration function, please turn on "Controller Vibration" in the Configs menu.

*Up to four players can play, but only during battles.
